in2aqua

## Smart luxury

in2aqua was developed with a keen sense of environmental responsibility and the will to push technological and design boundaries to reach its goal. For this reason, all our faucets have received a high efficiency rating. The result is a designer product that is highly functional yet promotes sustainable usage. Our faucets are user friendly and in2aqua is committed to developing the technology of tomorrow today. All our products must balance Function, Form & Flow. This philosophy sets a high quality standard throughout our company and enables our showrooms to offer luxury products at an elegant price point.

Founder & Managing Director  
Christopher Marshall

## Made in Germany

At in2aqua, we strive for the best possible quality. Currently, most of our faucet assortment is made in Germany. We feel this dedication to quality is crucial for building customer trust in our products.

**WERKSDESIGN**

Volker Schumann of WERKSDESIGN

WERKSDESIGN supports in2aqua with strategic product design solutions. Like an integrated department, the team is led by Volker Schumann who develops innovative products in close cooperation with its clients and covers everything from simple designs to complex systems. WERKSDESIGN has supported international lifestyle brands like ADIDAS, AUDI,

NIKE, SONY and VOLKSWAGEN from their Berlin, Germany office since 2004.

WERKSDESIGN has won several prestigious international recognitions such as the iF and red dot design awards.

## in2aqua in2itiv Rough-In Mounting System

Patented & award winning technology that  
sets in2aqua technology apart from all  
other rough-ins

in2itiv

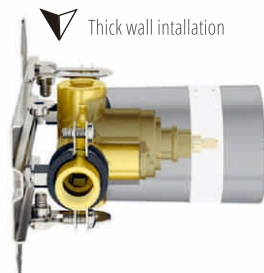

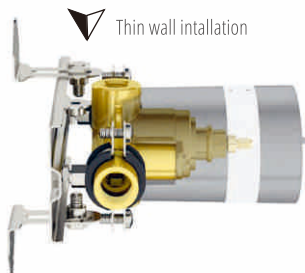

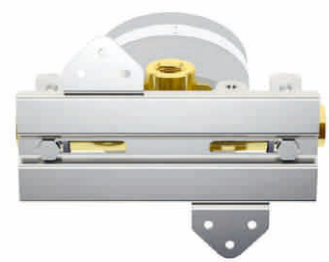

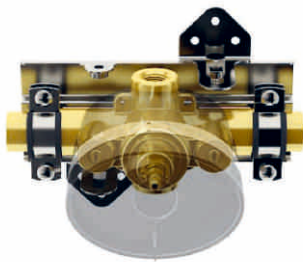

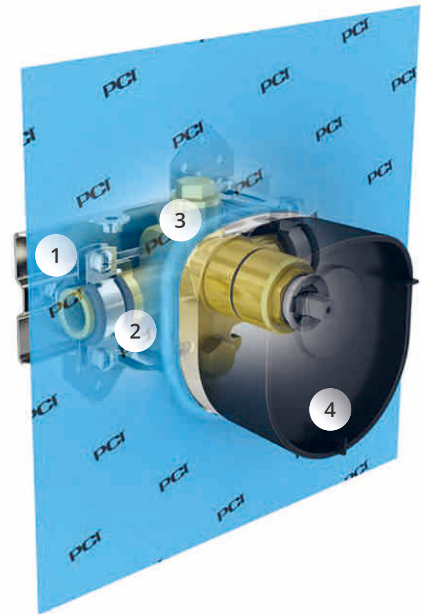

Awarded the  
**AIT Innovation Prize**

**"Architecture +  
Technology"**

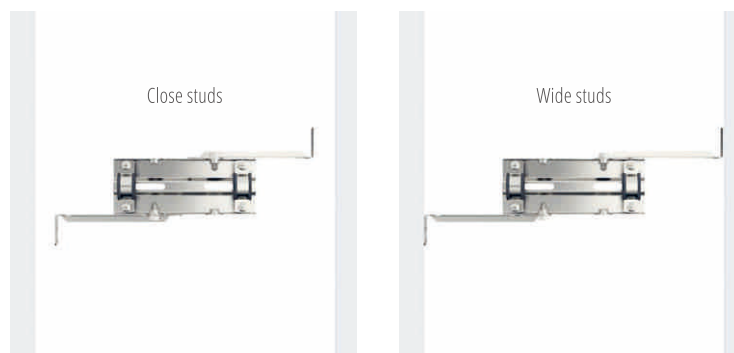

ISH Frankfurt, Germany

in2aqua

- 1 The rough-in mounting system that allows for easy wall depth adjustments and compensates for uneven mounting surfaces.
- 2 Sturdy clamping system with quick connects.  
Flame retardant metal mounting system.
- 3 The in2itiv system decouples the valve from the mounting wall thus reducing noise transfer when in operation.
- 4 As an added feature, the polymer box provides extra protection against potential drips that can come from the shower area during operation or maintenance of the valve. The box design and trim kit allow water to safely exit the inner wall to the shower area.

Thin Wall Adapter

## in2aqua eurobalance

The perfect balance of function, form & flow

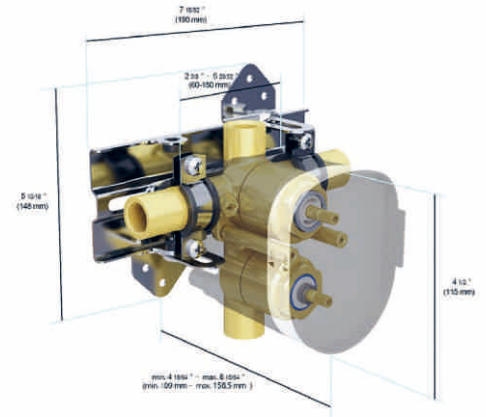

## ROUGH-INS in2itiv

### in2aqua 4-port pressure balance valve (eurobalance), with manual diverter

1195 2 99 2  
\$480.00

or CALGreen compliant option  
1196 2 99 2  
\$497.00

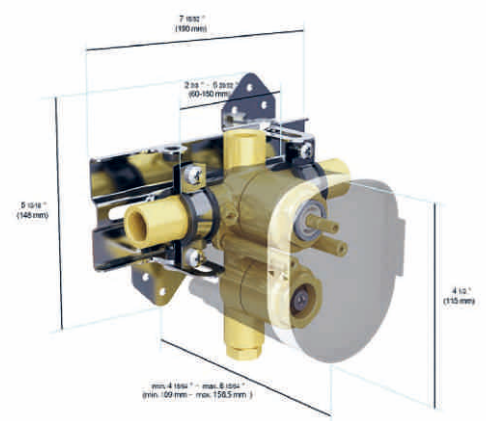

- German Quality, Engineering & Design
- Go Pro lifetime faucet & finish warranty
- Built-in service ball stops for convenience
- Designed to prevent cross flow and reduce water hammer
- 1/2" NPT female connections
- Protection against scalding and cold water shock
- Stainless steel piston compensates for water pressure fluctuations
- Cold water supply failure .05 gpm within 5 seconds
- Temperature control within 3°F (1.78°C) of set point
- Reversible cartridge allows back to back installation, eliminating additional piping
- Shallow valve body suitable for thin wall installations
- Manual diverter allows for setting to stay in place after use
- Proven technology reduces replacement parts and trouble shooting
- Flow rate: 6 GPM at 50 PSI / tub
- Flow rate: 4.6 GPM at 50 PSI / shower
- Approved to ASME A112.18.1, CSA B125, and ASSE 1016 standards

### in2aqua 3-port pressure balance valve (eurobalance), without diverter

1194 2 99 2  
\$405.00

- German Quality, Engineering & Design
- Go Pro Lifetime faucet & finish warranty
- Built-in service ball stops for convenience
- Designed to prevent cross flow and reduce water hammer
- 1/2" NPT female connections
- Protection against scalding and cold water shock
- Stainless steel piston compensates for water pressure fluctuations
- Cold water supply failure .05 gpm within 5 seconds
- Temperature control within 3°F (1.78°C) of set point
- Reversible cartridge allows back to back installation, eliminating additional piping
- Shallow valve body suitable for thin wall installations
- Proven technology reduces replacement parts and trouble shooting
- Flow rate: 4.6 GPM at 50 PSI / shower
- Approved to ASME A112.18.1, CSA B125, and ASSE 1016 standards

## ROUGH-INS in2itiv

### in2aqua in2itiv thermostatic valve rough-in

- German Quality, Engineering & Design
- Go Pro lifetime faucet & finish warranty
- All functioning parts made of high-quality brass.
- European materials are used which are resistant to wear, lime scale and contamination.
- Braided sieves for optimal performance.
- The Flühs Eco Drive allows the optimum temp settings
- Fast thermal element shut-down in case of cold water loss
- Fast response time to reduce hot and cold spikes
- Connection 1/2" NPT
- Flow rate: 7.5 GPM at 45 PSI
- ASME A112.18.1, CSA B125 and ASSE 1016 standards compliant
- Sound decoupled rough in according to DIN 4109

1115 2 99 2  
\$528.00

### in2aqua in2itiv motion 3 independent functions or combo diverter with shut-off rough-in

- German Quality, Engineering & Design
- Go Pro lifetime faucet & finish warranty
- Pre-mixed water up to three separate functions
- Positive detent assists user in finding desired setting
- Volume control for each function
- Shut off position included
- Fluehs ceramic disc technology
- Flow rate: 10.5 GPM at 45 PSI
- Connection 1/2" NPT
- ASME A112.18.1, CSA B125 and ASSE 1016 standards compliant
- Sound decoupled rough in according to DIN 4109

1130 2 99 2

### Performance Showers

in2aqua's advanced multi port ceramic disc valve diverter combined with our high performance thermostatic valve guarantees an ergonomic and user friendly shower system. Our award winning in2itiv mounting system saves installation costs and reduces sound transfer to the back wall. Equally impressive is in2aqua's shower collection which utilizes Air Technology to enhance the showering experience and save water. All in all, in2aqua showers offer superior quality, performance and versatility.

## Kitchen

**Form and function are  
key design elements that  
help define every  
in2aqua kitchen faucet**

## in2aqua two-handle pull down kitchen faucet

All pull-down sprays come with a durable non kink metal hose and magnetic lock design that assures the metal pulldown spray will stay in place when not in use. The entire brass spout can be lifted and laid to the side if the kitchen windows open towards the faucet.

Available in chrome or stainless steel optic, all pull-downs feature dual-spray functionality that can be locked in either mode and has a maximum handle position to eliminate back-splash contact. The entire aerator and veggie spray features an anti-lime scale system – a simple wipe of a finger removes build up and maintains optimal water flow; plus the smooth, long-lasting, greaseless ceramic disc cartridge assures drip free performance.

## KITCHEN

### in2aqua Edge two-lever handle kitchen faucet with swivel spout, pull-down spray

- German Quality, Engineering & Design
- Faucet body constructed of solid brass
- Metal handles and escutcheon
- Spout swivels 150 degrees for increased comfort
- Go Pro lifetime faucet & finish warranty
- Two-lever handle operation utilizing greaseless ceramic disc technology
- ADA compliant
- Locking push button control to switch from regular flow to spray
- 55" retractable metal spray hose
- Neoperl flexible hose technology 9/16"-24 UNEF
- High Performance 2 function with non-metallic pullout spray with position lock
- Easy to clean silicon nozzles that can be easily cleaned inside & out
- CALGreen compliant
- ASME A112.18.1, CSA B125.1, NSF/ANSI 61
- Max flow 1.8 GPM
- Extra long flexible supply lines (25 1/2")
- Counterweight to help retract metal hose with little effort

## in2aqua pull-out kitchen faucets

In2aqua pull-out kitchen faucets combine innovative design with the functionality and quality that the harshest kitchen environments demand. All pull-outs come with a durable non kink metal hose and optimal ergonomic design that assures the pull-out will stay in place when not in use.

Available in chrome or stainless steel optic, all pull-outs feature dual spray functionality that can be locked in either mode and has a maximum handle position to eliminate back-splash contact. The entire aerator and veggie spray ring is removable and features an anti-lime scale system – a simple wipe of a finger removes build up and maintains optimal water flow; plus the smooth, long-lasting, greaseless ceramic disc cartridge assures drip free performance.

# Terms and Conditions

1. **Prices** - Subject to change without notice.
2. **Freight** - in2aqua GmbH reserves the right to ship products by our choice of carrier. All shipments are F.O.B. via our point of distribution.
3. **Deliveries** - in2aqua GmbH regrets delays beyond our control caused by strikes, fires, shortage of materials, accidents, transportation delays or acts of God, however we cannot be held responsible for them.
4. **Returns** - All returned goods are subject to a restocking charge.
5. **Special Orders** - Special order products are not returnable and not refundable.

## The procedure for returning products ordered is as follows:

1. **Product Condition** - Product MUST be in original box and box must be in LIKE-NEW CONDITION.
2. **Returned Goods Authorization (RGA)** - Product returns prior to shipping will not be accepted without a returned goods authorization. Telephone customer service to obtain an RGA. You will receive an email/fax a copy of the RGA.
3. **Packaging** - Place a copy of the RGA inside the box prior to shipping it back to point of original distribution. If possible, place the product box and paperwork inside another shipping box to protect the original packaging.
4. **Shipping** - Ship the product back to us prepaid.
5. **Time Period for Returns** - All requests to return products must be received within 10 days of invoice.
6. **Damage or loss in Shipping** - Any claim for loss or damage should be made to the carrier immediately by the customer. Products become the responsibility of the carrier when they are accepted by the carrier in good condition from in2aqua.
7. **Product Changes** - in2aqua GmbH reserves the right to change, discontinue, modify or redesign products without liability for inventory obsolescence.
8. **General** - The possession of our catalog or price list by any person is not an offer to sell any of the goods shown. This price list supersedes all previous price lists or memoranda. in2aqua's existing trade terms and conditions remain in effect. Orders, contracts or agreements do not become an obligation of in2aqua until confirmed by in2aqua.

**The above terms and conditions shall be a part of all such acceptances by in2aqua and shall supersede any conflicting provisions of our customer purchase orders.**
