in2aqua

Smart luxury

in2aqua was developed with a keen sense of environmental responsibility and the will to push technological and design boundaries to reach its goal. For this reason, all our faucets have received a high efficiency rating. The result is a designer product that is highly functional yet promotes sustainable usage. Our faucets are user friendly and in2aqua is committed to developing the technology of tomorrow today. All our products must balance Function, Form & Flow. This philosophy sets a high quality standard throughout our company and enables our showrooms to offer luxury products at an elegant price point.

Founder & Managing Director
Christopher Marshall

Look deeper and explore "smart luxury"
by in2aqua

Made in Germany

At in2aqua, we strive for the best possible quality. Currently, most of our faucet assortment is made in Germany. We feel this dedication to quality is crucial for building customer trust in our products.

in2aqua

WERKSDESIGN

"Design is never an end in itself;
it is not about something like
fashion or just a beautiful shape,
but about long-term values.

in2aqua products perfectly
represent the philosophy of
"faucets made with passion"
- a smart design with high visual
and functional standards."

Volker Schumann
WERKSDESIGN

WERKSDESIGN - A leading design studio located in Berlin, Germany

WERKSDESIGN brings the best of both worlds to in2aqua - the seamless collaboration and shared insights of an integrated department, combined with the fresh perspectives and diverse international experienced design team.

reddot design award

GERMAN
DESIGN
AWARD

iF product design award

in2aqua offers a variety of tarnish-free finishes made with innovative technologies that ensure both durability and safety.

Finishes that endure

Cutting edge design

For over 20 years, WERKSDESIGN has been developing award-winning interdisciplinary products for international brands with German design virtues and holistic values, focusing on quality, functionality, sustainability and the human touch.

**Forward-thinking technologies
that combine German quality,
engineering, and design.**

**With optimized ergonomics,
a world-class design and water-
efficient certifications, in2aqua
products offer an unmatched
user experience.**
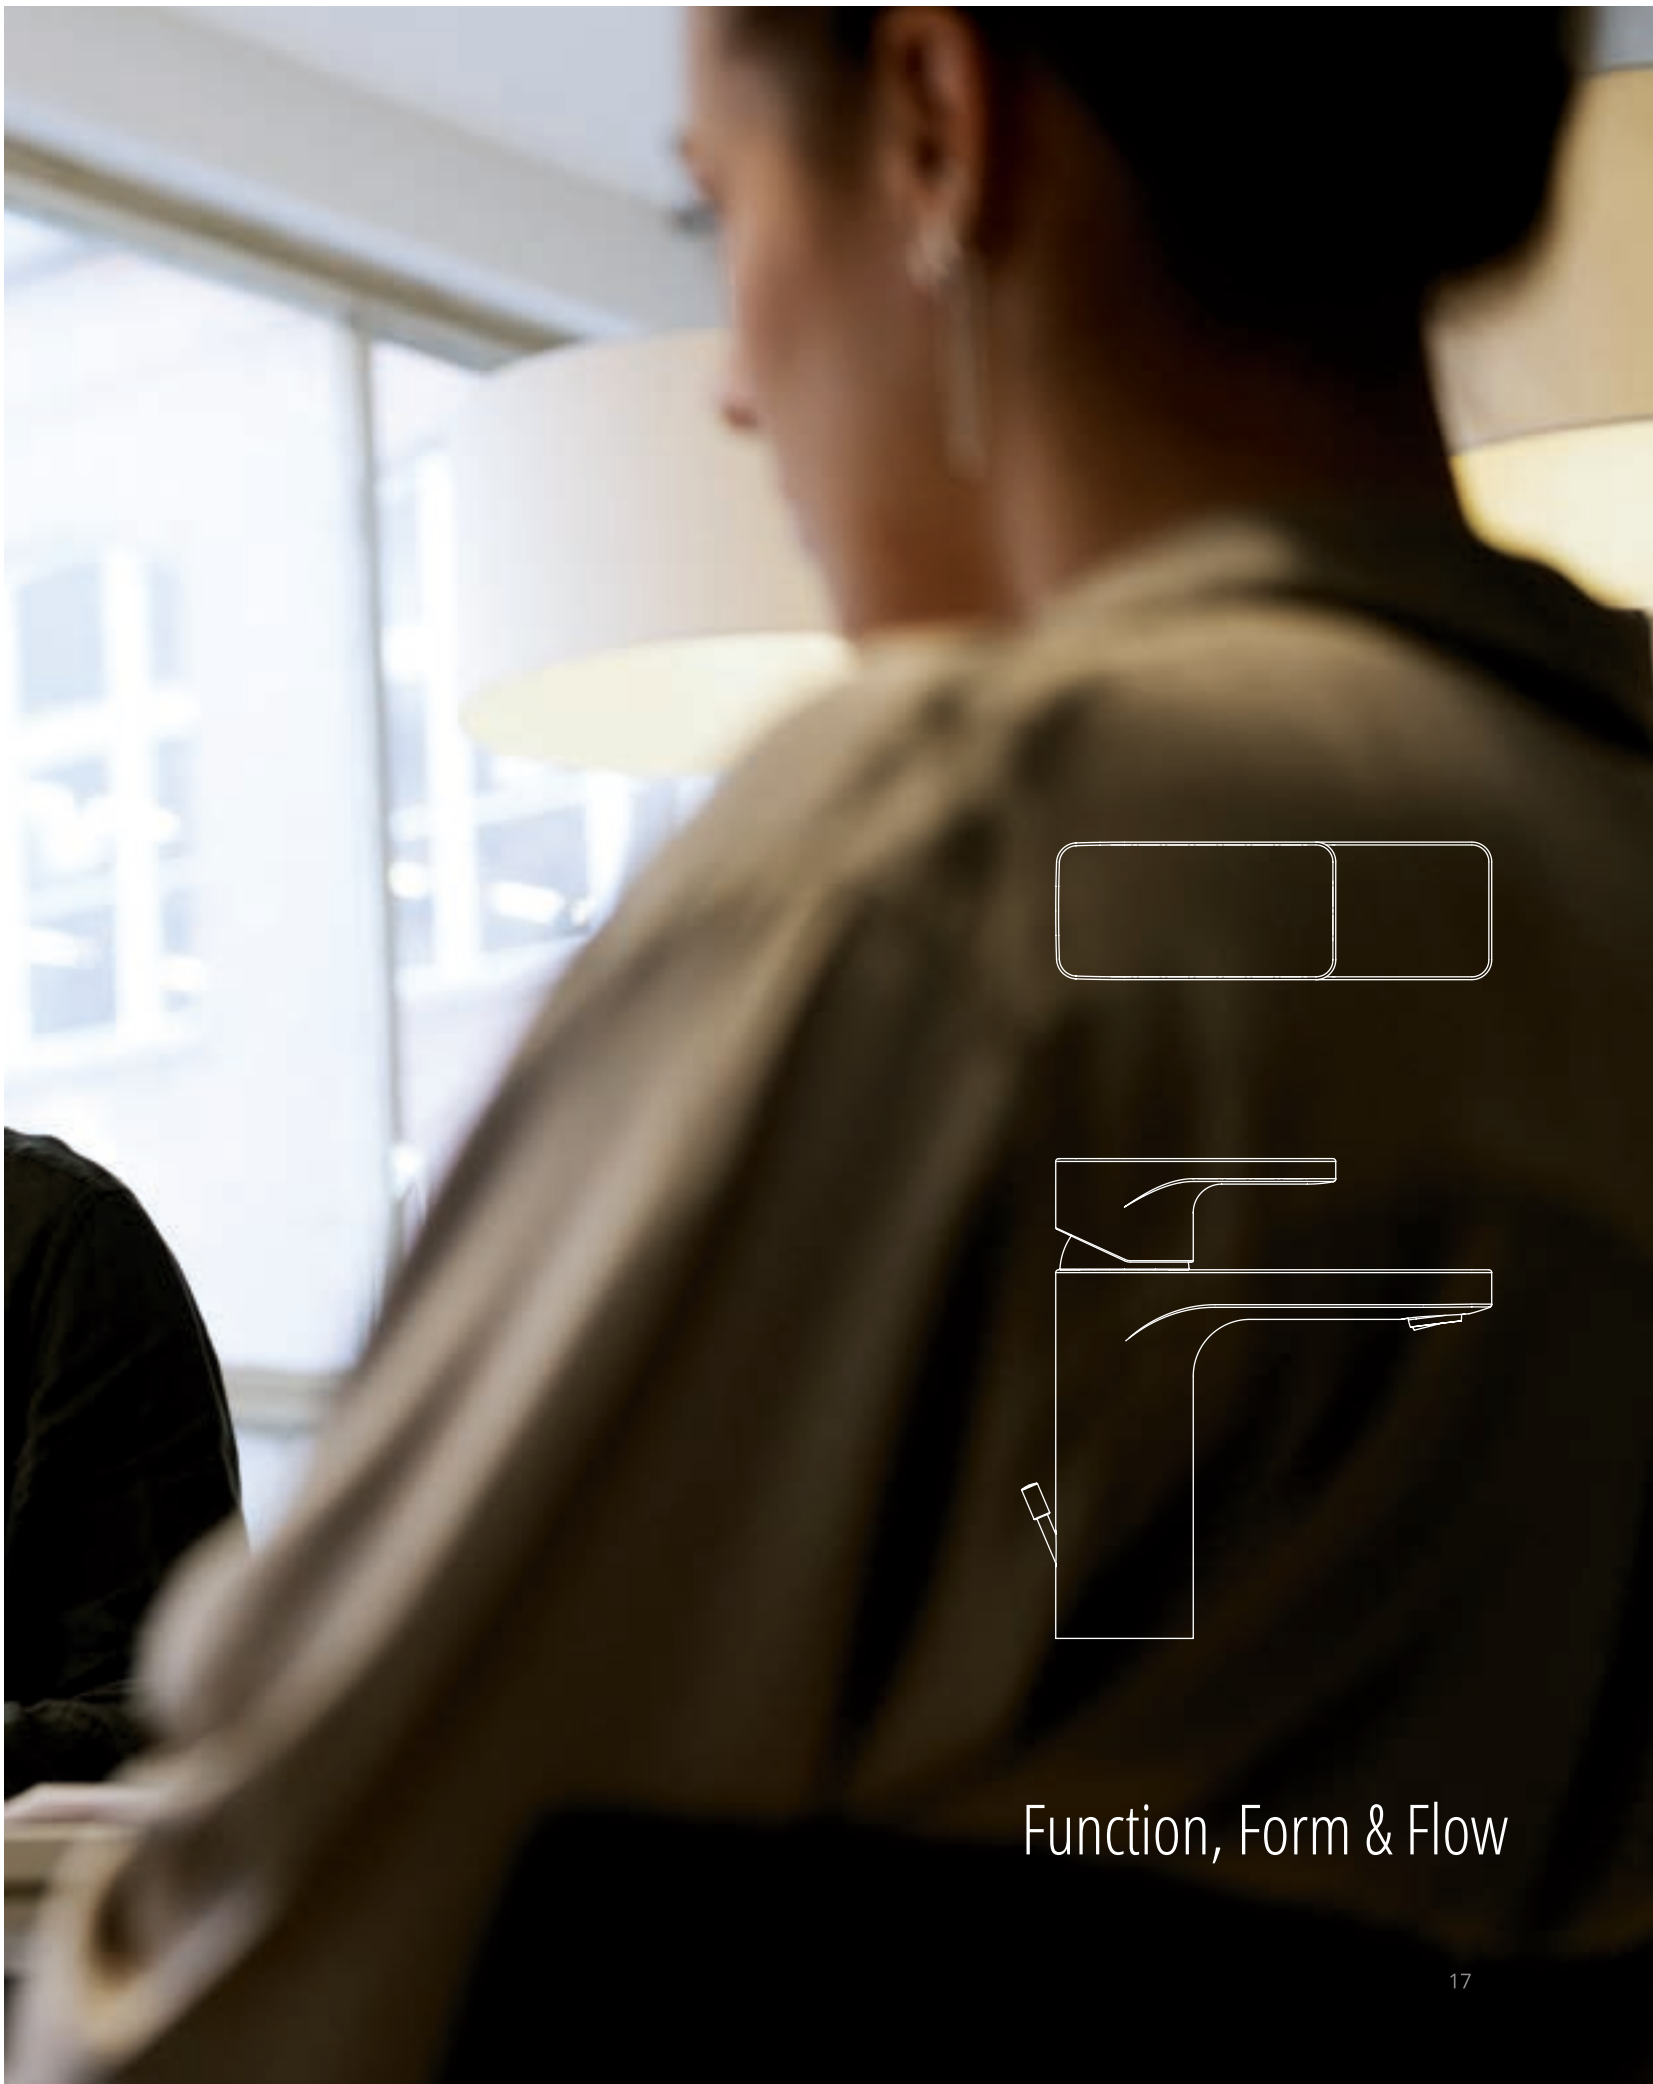

Function, Form & Flow

WERKSDESIGN

in2aqua combines award winning industrial
design and German engineering

in2aqua

Stellar faucets made with quality components

Pure water is the foundation of all life. At in2aqua, we strive to create stellar products that are made for the user in the most safe and reliable way. We are committed to design excellence and improving our high quality on a continuous basis.

All our products are engineered with EN 817, EN 1111, NSF/ANSI61, ASME A112.18.1-2012, CSA B125.1-12 in mind and meet or exceed North American standards.

in2aqua in2itiv
Rough-In Mounting System

Patented & award winning technology that sets in2aqua technology apart from all other rough-ins

in2itiv

Awarded the
AIT Innovation Prize

"Architecture + Technology"

ISH Frankfurt, Germany

1 The rough-in mounting system that allows for easy wall depth adjustments and compensates for uneven mounting surfaces.

2 Sturdy clamping system with quick connects.
Flame retardant metal mounting system.

3 The in2itiv system decouples the valve from the mounting wall thus reducing noise transfer when in operation.

4 As an added feature, the polymer box provides extra protection against potential drips that can come from the shower area during operation or maintenance of the valve. The box design and trim kit allow water to safely exit the inner wall to the shower area.

Forged non porous brass valve body

Ceramic diverter cartridge

All metal trim and handle with manual diverter
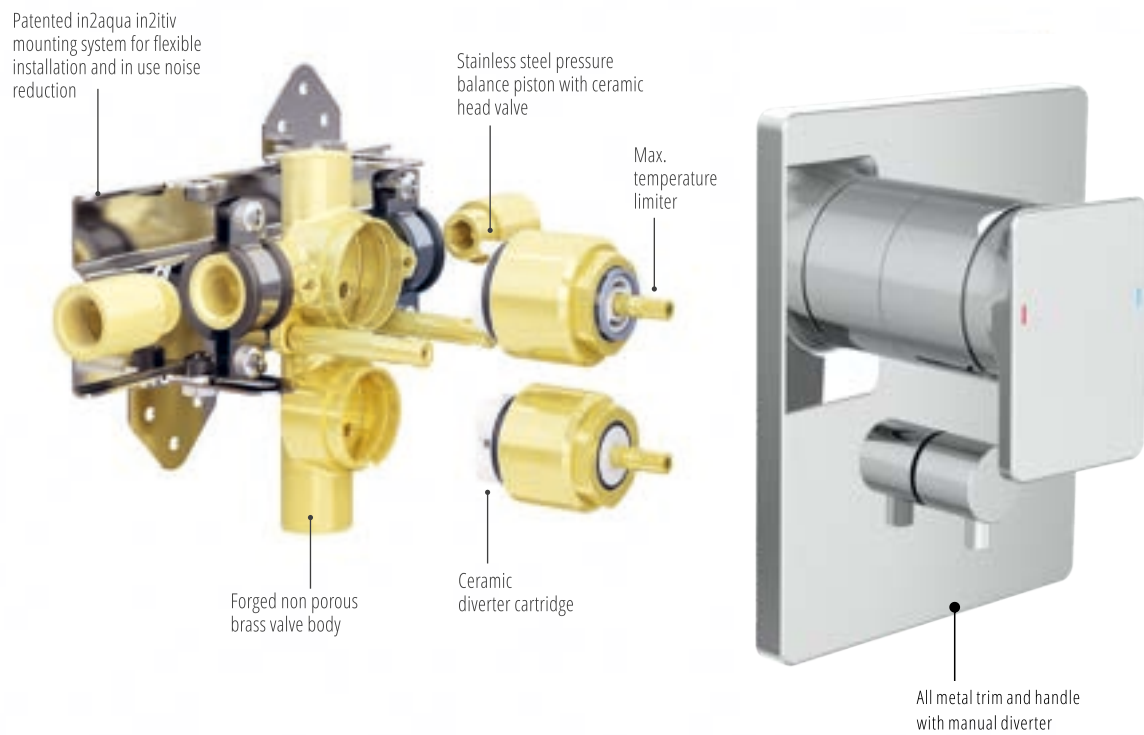

ROUGH-INS in2itiv

in2aqua 4-port pressure balance valve (eurobalance), with manual diverter

- German Quality, Engineering & Design
- Go Pro lifetime faucet & finish warranty
- Built-in service ball stops for convenience
- Designed to prevent cross flow and reduce water hammer
- 1⁄2" NPT female connections
- Protection against scalding and cold water shock
- Stainless steel piston compensates for water pressure fluctuations
- Cold water supply failure .05 gpm within 5 seconds
- Temperature control within 3°F (1.78°C) of set point
- Reversible cartridge allows back to back installation, eliminating additional piping
- Shallow valve body suitable for thin wall installations
- Manual diverter allows for setting to stay in place after use
- Proven technology reduces replacement parts and trouble shooting
- Flow rate: 6 GPM at 50 PSI / tub
- Flow rate: 4.6 GPM at 50 PSI / shower
- Approved to ASME A112.18.1, CSA B125, and ASSE 1016 standards

Performance Showers

in2aqua's advanced multi port ceramic disc valve diverter combined with our high performance thermostatic valve guarantees an ergonomic and user friendly shower system. Our award winning in2itiv mounting system saves installation costs and reduces sound transfer to the back wall. Equally impressive is in2aqua's shower collection which utilizes Air Technology to enhance the showering experience and save water. All in all, in2aqua showers offer superior quality, performance and versatility.

in2aqua- Techno S

Dropless System

After shutting off the water, the remaining water completely drains from the Dropless shower head. This enables the system to reduce bacteria build up within the shower head. The quick removal of all remaining water reduces the possibility of limescale buildup inside the shower head and nozzles.

HIGHLIGHTS

- Releases residual water after each use
- Diminishes deposits build-up
- Reduces bacterial contamination

WATER OFF
AIR
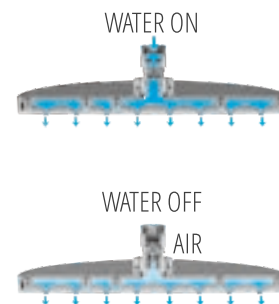

TECHNOLOGIES

in2aqua- Retro

The Shower system **in2aqua- Retro** is an easy renovation solution for the bathroom.
Upgrade your bathroom without major renovation and convert your shower head to a two-way system with the benefit of an extra hand shower.

Old system

✗ Shower head only
✗ Renovation needed to add a hand shower
✗ Not enough space for conventional system

Shower System Retro

✔ Complete system with shower head and multifunction hand shower
✔ Compact, modern and beautiful design
✔ Plug and play: no renovation needed

EASY 3 STEP INSTALLATION

1 To upgrade your standard shower, you will first have to simply remove your existing showerhead.

2 Install the Shower system in2aqua PS- Retro without having to make any changes to the in-wall plumbing. The compact system is suitable for any shower.

3 Complete the transformation by installing shower head and the hand shower.

TECHNOLOGIES

Silk spray

Imagine a spray as soft as silk caressing your skin. With the sensation of a light summer rain, the new SILK shower allows you to feel relaxed and rejuvenated.

Avoiding limescale buildup in the shower head keeps the system working at maximum efficiency.

Swirl spray

The new non-cloggable Swirl spray technology exhilarates your body.

The spiraling hollow spray massages your skin in a circular motion with a feeling of a rejuvenating waterfall.

TECHNOLOGIES

Massage spray

Switch to wellness! Enjoy the powerful massaging shower spray that exhilarates the body and awaken the senses.

Booster technology creates the sensation of a full shower regardless of the water pressure.

Airdrop©

AIR

AIR

Experience a gentle, uplifting feeling that envelopes the body.

Delivering a rejuvenating spray that is soft and gentle on the skin. Airdrop showers operate quietly and save water at the same time.

in2aqua two-handle pull down kitchen faucet

All pull-down sprays come with a durable non kink metal hose and magnetic lock design that assures the metal pulldown spray will stay in place when not in use. The entire brass spout can be lifted and laid to the side if the kitchen windows open towards the faucet.

Available in chrome or stainless steel optic, all pull-downs feature dual-spray functionality that can be locked in either mode and has a maximum handle position to eliminate back-splash contact. The entire aerator and veggie spray features an anti-lime scale system – a simple wipe of a finger removes build up and maintains optimal water flow; plus the smooth, long-lasting, greaseless ceramic disc cartridge assures drip free performance.

KITCHEN

in2aqua Edge two-lever handle kitchen faucet with swivel spout, pull-down spray

- German Quality, Engineering & Design

in2aqua pull-out kitchen faucets

In2aqua pull-out kitchen faucets combine innovative design with the functionality and quality that the harshest kitchen environments demand. All pull-outs come with a durable non kink metal hose and optimal ergonomic design that assures the pull-out will stay in place when not in use.

Available in chrome or stainless steel optic, all pull-outs feature dual spray functionality that can be locked in either mode and has a maximum handle position to eliminate back-splash contact. The entire aerator and veggie spray ring is removable and features an anti-lime scale system – a simple wipe of a finger removes build up and maintains optimal water flow; plus the smooth, long-lasting, greaseless ceramic disc cartridge assures drip free performance.

Top lever pull-out faucets

in2aqua top lever kitchen faucets have plenty of quality features to offer:
a robust 35 mm ceramic cartridge and metal hose, a tarnish free extra hard
chrome coating and PVD stainless steel optic.

Additionally, all our kitchen faucets use lead free brass, Fluehs valves, plasma
coated greaseless ceramic disc technology, Neoperl aerators, M-Lock and much
more. Every high quality component is tested and must meet or exceed in2aqua
specifications before being assembled in modern & certified facilities.

TERMS AND CONDITIONS OF SALE AND DELIVERY

in2aqua North America

Customer Service (800) 257-6051 • FAX (800) 257-6051

www.in2aqua.com • orders@in2aqua.com

DIRECT ACCOUNT	in2aqua Registered Showrooms are Direct Accounts of in2aqua. Registered Showrooms are considered open only after the in2aqua Credit Department has received and approved a Credit Application.
PURCHASE ORDERS	All Purchase Orders must be submitted to in2aqua via email at **orders@in2aqua.com** or by FAX **(800) 257-6057** for order processing.
ORDER SHIPMENT	All in2aqua products ordered will be Shipped from in2aqua distribution, located in Livermore, California. Products in stock can be shipped the same day from receipt of the Purchase Order. To expedite shipping, items unavailable at the scheduled time of shipping will be backordered unless otherwise noted by the Registered Showroom. Items not stocked and special ordered will be scheduled to ship based on in2aqua's stock replenishment shipping schedule.
INVOICE PAYMENTS	All Invoice payments will be processed through RESOLVE, a third-party accounts receivable payment platform and in accordance with the Payment Terms below. Payment remittance instructions will be included with the Invoice. Payment options include sending check via mail, credit card, or ACH. Checks should be payable to "**in2aqua North America**".
PAYMENT TERMS	Terms of sale are NET 30 DAYS from date of Invoice. Payments are to be received no Later than the last day of the month due or the account is considered delinquent and subject to a 1-1/2% service charge. Accounts not paid within terms may be put on COD.
PRICING	Subject to change without notice. All Purchase Orders accepted shall be subject to the price in effect at the time of the order, unless specific quotations have been made. Although in2aqua makes every effort to keep its Registered Showrooms up-to-date with all pricing, **it is the Registered Showroom's responsibility** to confirm they have the most recent pricing on any given product. The current price of all products is always reflected on the **www.in2aqua.com** website.
FREIGHT	Unless otherwise requested by the Registered Showroom, shipment from in2aqua distribution will be handled by UPS or common carrier. Registered Showrooms are responsible for all UPS and common carrier charges.
DAMAGE OR LOSS SHIPPING CLAIMS	The Registered Showroom consignee must file all claims for damage or loss with the carrier **immediately**. Goods become the responsibility of the carrier when they are accepted by the carrier in good condition from in2aqua distribution. All claims of damage, loss, or defective product must be reported to in2aqua within **five (5)** working days of receipt of product.
RETURNED GOODS	All returned goods are subject to a restock charge of 25% ($20 minimum). All requests for returns must be handled within 30 days of receipt of product and product must be returned within 45 days after RGA has been issued. *All special orders items are sold strictly on a non-returnable, non-refundable basis.*
RETURNED GOODS AUTHORIZATION (RGA)	The procedure for returning products ordered is as follows: 1. Product MUST be in original box and box must be in perfect condition. 2. Contact in2aqua by email (info@in2aqua.com) or phone (800-257-6051) to request the "Return Goods Authorization" (RGA) paperwork. in2aqua will email a copy of the RGA to the Registered Showroom. 3. Place a copy of the RGA inside the product box prior to shipping it back to in2aqua distribution. Place the product box and paperwork *inside another shipping box to protect the original packaging*. 4. Write the RGA # on the outside of the shipping box. 5. Ship the product prepaid back to: in2aqua North America NOTE: All RGAs must be returned within 45 days. RGAs will be cancelled from our system after 45 days.
DEFECTS AND SHIPPING ERRORS	All shipments should be checked immediately upon delivery. Notification of defect or error must be made to in2aqua within **five (5**) working days from date of Invoice. Acceptability for defects or errors for which in2aqua is responsible is limited to a period of up to but not to exceed 30 days from date of Invoice. All defective product is to be returned to in2aqua with proper documentation (see RETURNED GOODS above). Normal wear and tear is not considered defective. No labor charges of any kind will be credited. Credits will be issued upon product being accepted and inspected by in2aqua.
