COLLECTION

in SculptureStone®

This is the MTI Collection, made from *SculptureStone®*.

The embodiment of MTI's commitment to high design and the luxury bathing experience.

These are purposefully designed vessels that are beautiful in their form and effective in their function. Works of art that create a luxury experience with the smooth touch of molded stone, handcrafted in the USA by the skilled artisans of MTI.

THE MATERIAL

SculptureStone® is a proprietary material used exclusively to create the MTI Collection products.

- Approximately 70% of the material is organic: natural stone that is comprised of various minerals.
- This is refined into a powder and combined with high-performance resins that are binding agents.
- The material is liquefied, poured into a mold, cured and hand-finished.
- The result is a solid work of molded stone. Smooth, 100% solid throughout without top coating, layers or hollow areas.
- Non-porous, stain-, mold- and mildew-resistant, making cleaning and maintenance easy.

HYDROTHERAPY OPTIONS

SOAKING BATH

The most elemental form of hydrotherapy is the soaking bath, where heat and water's natural buoyancy foster deep relaxation. All MTI Collection freestanding tubs are ergonomically designed for maximum comfort with our proprietary SculptureStone® material to help keep bath water warmer longer.

AIR BATH

Millions of tiny air bubbles are released through small holes that line the bottom of the tub, creating a light-body massage. Air holes positions are carefully engineered for optimum relaxation and uniformity of air force. Air flow can be adjusted from soft to stimulating.

COLOR OPTIONS

Let your personality show through with a splash of color in the bathroom. The MTI Collection allows you to choose from six exterior colors to accent or integrate with your bathroom decor. Available on many tubs, vessel and semi-recessed sinks in matte or gloss finish.

SAPPHIRE BLUE

BLUE LAGOON

TERRACOTTA

STRATUS GRAY

STORM GRAY

ONYX

FREESTANDING TUBS

The MTI Collection tubs are works of art that will transform your bathroom into nothing less than the extraordinary.

MTI Collection tubs are available as soakers or with air bath, in white or biscuit with a soft matte or hand-polished deep gloss finish. Each tub is individually manufactured and handcrafted using our proprietary SculptureStone®. Multiple quality control checks are employed, including individual water-testing and component operation.

VESSEL-SINKS

MTI offers a wide selection of vessel sinks that mimic or complement the designs of MTI tubs. There are round, rectangle and oval options in sizes to fit all needs.

SEMI-RECESSED SINKS

This style allows the top portion of the sink to rest on top of the counter while the sink bowl sits below the surface. The MTI Collections offers several sink designs with the semi-recessed option, including the four models of the Continuum (shown next page, bottom left) which offers a countertop-bowl cover that produces a vanishing bowl effect..

UNDERMOUNT & WALL-MOUNT SINKS

The MTI Collection offers three undermount sinks and three wall-mount sink options. Undermount sinks are installed under the countertop, which has been fitted for the sink. The wall-mounted sink options range from 22" to 52" inches wide. Optional carriers arms can be ordered for certain lengths.

CUSTOM COUNTER SINKS

MTI Collection counter-sinks are made with SculptureStone®. You may select custom length, depth and height, bowl style and position(s).

These are fabricated to order, using a molded sink basin; slabs are poured to meet the custom dimensions. These parts are seamed together using the same material that forms the sink bowls and counter. The unit is then cured and hand-finished. This creates seamless integration and allows for customization on all orders.

Accessible from any counter-sink product page on mtibaths.com, the MTI Configurator will walk you through creating your custom counter-sink.
