COLLECTION

MTI's Solutions Collection is a comprehensive selection of award-winning products, thoughtfully designed and handcrafted by artisans in the USA. It includes an array of customizable therapy tubs, sinks and shower bases, all made-to-order by hand and quality-tested.

Crafted from high-quality Acrylic CXL® or Dolomatte®, Solutions products can be tailored to suit your needs. Choose from hydrotherapy and sensory therapy options, along with countless accessories for a truly personalized experience.

Explore the variety of styles, including freestanding, drop-in, alcove, and undermount tubs, as well as laundry sinks and shower bases.

CREATING YOUR PERSONALIZED BATHING EXPERIENCE

MTI is dedicated to redefining the bathing experience with its extensive range of freestanding, drop-in, and undermount tubs. Each tub is designed with customization in mind, allowing you to tailor your space to reflect your personal style and meet your unique needs.

The ideal bathtub is more than just a fixture; it caters to your physical, emotional and lifestyle preferences. Whether you're looking to unwind after a long day or enjoy a refreshing escape, MTI Solutions offers a variety of options to help you create a bathing experience that fits your lifestyle. From elegant freestanding bathtubs to the calming comfort of whirlpool jets, there are customization choices at every step of your bathroom design, ensuring a personalized experience tailored to your needs.

CHOICE OF MATERIAL

Acrylic CXL®

The finest grade of sheet acrylic available: cross-linked continuous cast acrylic, is used the first step in a multi-step process that includes thermoforming, additional strengthening and hand finishing.

DoloMatte®

DoloMatte is a solid-surface material with a signature matte finish and a velvety-soft touch and feel. A specialty polymer blended with ground minerals undergoes a multi-step process that also includes thermoforming, additional strengthening and hand finishing.

CHOICE OF INSTALLATION

Freestanding Tubs

MTI Solutions offers more than 70 different models to complement and accent traditional, contemporary and transitional design. Most are available in velvety-soft solid surface DoloMatte or glossy Acrylic CXL, as a soaker or with air bath.

Drop-In, Undermount and Alcove Tubs

The Solutions Collection offers more than 80 models, available in DoloMatte or Acrylic CXL with the industry's largest assortment of hydrotherapy and sensory therapy options for wellness.

Sculpted Finish

Solutions' Sculpted Finish® tubs feature a seamless sculpted skirt on one, two or three even four sides to create a freestanding tub. This hand-finished option is available on the Andrea, Kahlo and Metro drop-in tubs

CHOICE OF SENSORY THERAPIES

Audiotherapy

MTI's Stereo H2O integrates electronic transducers into the bath shell, so the bather not only hears the sounds but also feels the music. Available with transducers only or with bluetooth amp.

Aromatherapy

This therapy uses aromatic essences to enhance your bath with smells that could promote your health of body, mind and spirit. Most Solutions air bath systems for drop-in tubs include a built-in aromatherapy diffusion system.

Thermaltherapy

MTI Solutions thermaltherapy relies on added heat to the tub to soothe, quiet and relax the body. MTI's Radiance® is a bath surface heating system that applies radiant heat to the interior surface of the tub. Location for Radiance® application can be customized to the customer needs.

Chromatherapy

Most MTI Solutions baths offer the possibility of including the therapeutic effects of chromatherapy through the use of underwater lighting provided by digitally controlled LEDs.

CHOICE OF HYDROTHERAPY

Whirlpool

This hydrotherapy involves water from the bathing well mixed with air and reintroduced with force through the whirlpool jets. For all jets, the bather can control the air volume which means the pressure. Point massage jets operate individually so the bather can choose which jets to open/close and adjust the jets directionally. The massage provided by the point massage jets is more targeted and intense than the air massage; this therapy is similar to a deep tissue massage.

Ultra Whirlpool

Most Ultra Whirlpool packages include Ozone, micro-jets and Tsubo Massage, a gentle Shiatsu-like back massage. The micro jets are clustered in a fixed position and cannot be individually operated. The massage provided by these jets is pinpointed and provides a massage similar to acupressure.

Air Bath

Air bath experience sends millions of tiny bubbles to envelop the bather with air jets that are located at the bottom of the bathing well. So, as the air bubbles rush to surface of the water, they will envelope the bather resulting in a gentle, full-body massage. The warm air that is blown into the water via a heated air blower, creates an effect that is known to increase blood flow at the skin surface, open pores, and aid in detoxification. The standard air massage has a "pulsation mode", but this acts on all the jets at the same time.

Air Bath Elite

Air Massage Elite comes with 10 additional air jets, chromatherapy LED lighting, and Spa Mode. Spa Mode is a pre-programmed massage pattern that air jets follow; the jets will engage in a cascading cycle along the length of the bather's body.

Microbubbles

Microbubbles super-saturates the water with up to 50% more dissolved oxygen. Billions of the tiniest bubbles are released in such a density that the water turns milky white. The skin is cleansed and gently exfoliated, feeling soft, smooth and supple.

Stream Bath

Stream Bath creates the ultimate soaking tub by replicating the feeling and sounds of relaxing in a tranquil forest stream.

FREESTANDING TUBS

If you are looking to create an outstanding master bath, select a freestanding tub as the centerpiece and focal point of your bathroom. MTI Solutions Collection offers more than 70 different models to complement and accent traditional, contemporary and transitional design motifs. A wide variety of styles, sizes and shapes available in velvety-soft solid surface DoloMatte or glossy Acrylic CXL. Both materials are non-porous, durable and impact/shock resistant. Also UV-, stain-, mold- and mildew-resistant. Easy to clean and maintain with most available as a soaker or with air bath.

MTI'S SCULPTED FINISH® CUSTOMIZATION PROCESS

At MTI, Sculpted Finish® describes both a look and a process. A seamless product, as if the tub were hand-molded out of a single piece of material. The process involves a series of detailed steps, all performed by hand by the craftsmen at MTI.

This customization process allows individuals to craft their own tub in velvety-soft DoloMatte or glossy Acrylic CXL. The Andrea®, Kahlo and Metro drop-in tubs may be ordered with Sculpted Finish® on one, two or three sides, or even four sides to create a freestanding tub.

MTI's Sculpted Finish® technique can also be applied to other square, rectangle and corner drop-in tubs on special order.

CHOICE OF OPTIONS

Inline Heaters

Inline heaters are available for soakers, air baths and whirlpools. These systems do not heat cold water but maintain bath water temperature at 104° F.

Ozone

The bath Ozonator, available in MTI whirlpool and Stream Bath tubs, is a safe, effective and natural bath sanitation system that works while the user is enjoying the whirlpool or Stream Bath.

Pre-leveled Frame System / Foam Base

Frame of hardwood construction makes installation easy. High-density, closed-cell foam supports the bottom of the pre-leveled tub. Front or sides of the frame may be recessed for tile or marble application. Available on rectangular and corner tubs.

Slim-line Overflow with Toe-tap Drain

Sleek, low-profile overflow offers a clean appearance. Different finishes are available. Overflow is factory-installed and applicable only to specific tubs.

Tile Flanges / Abs

Available on most rectangular and corner baths. Whether factory- or field-installed, the rigid ABS tile flange is chemically bonded to the tub to ensure a watertight installation between the top tub surface and the surrounding wall area.

Virtual Spout

The High-Flow Virtual Spout offers a discreet replacement for a filler spout. It is factory-installed on an inside wall of the tub. Helps provide an uncluttered appearance and removes the potential obstacle of a filler spout where that may be a safety concern.

Whirlpool Cleaning Systems

MTI's patented Fill-Flush® and Simple Touch® cleaning systems are the best on the market. Designed to keep your whirlpool clean and hygienic, both systems circulate cleaning solution and fresh water through the entire plumbing system in less than 5 minutes and with less than 10 gallons of water.

SHOWER BASES

MTI Solutions Collection shower bases integrate with a wide variety of materials and decors. Like most Solutions products, most sizes are available in both Acrylic CXL and DoloMatte. Additionally, there are end- and center-drain models available to meet your specific installation requirements.

Some bases are single threshold, and others are low-profile multiple-threshold, which means that they can be specified from the factory to accept glass enclosures on one, two or three sides. The low-profile modern design makes entrance and exit easier while the shallow height of the thresholds allows them to be recessed in the floor.

The Solutions Collection also includes barrier-free shower bases, which are designed specifically for installations that require a flat transition from bathroom floor to shower. These bases are also equipped with a special patented drain design to effectively capture the shower water. Individually manufactured and handcrafted, each product is built according to the specifications of the customer when it is ordered.

SINGLE THRESHOLD END DRAIN

Available in 8 sizes

MULTI THRESHOLD HIDDEN END DRAIN

Available in 12 sizes

MULTI THRESHOLD CENTER DRAIN

BAR, PREP AND LAUNDRY SINKS

Designer laundry sinks are both practical and beautiful. And MTI's patented jetted laundry sinks use jets instead of an agitator to wash fine wearables. Drop-in and undermount models are available in either glossy white or biscuit Acrylic CXL.

Model #	Model Name	Type	Size
MTPS-109	Harvest	Bar/Prep	40" x 18"
MTPS-108	Liberty	Bar/Prep	15" (round)
